

August 13, 2015

The Honorable Mike Thompson
U.S. House of Representatives
231 Cannon House Office Building
Washington, DC 20515

Dear Representative Thompson:

On behalf of the 42 undersigned organizations representing the Nursing Community coalition, we write in support of the Medicare Telehealth Parity Act of 2015 (H.R. 2948). Collectively, the Nursing Community represents over one million registered nurses, advanced practice registered nurses, nurse faculty, researchers, and students, and is committed to promoting efforts that advance the health of our nation through nursing care. We commend this legislation as it introduces a phased-in expansion of telehealth coverage under Medicare. Furthermore, this legislation promotes maximum utilization of health providers as it allows eligible practitioners to provide care across state lines.

As you know, Telehealth offers patients the opportunity to be treated by a provider through the support of electronic information and telecommunications technologies. It is an innovative solution that can help ensure access to care for patients across the country, and this is critical given the growing national demand for health providers and services. However, current statute limits the type of services and eligible settings for patients to receive care through Telehealth. This bill would expand the number of services as well as broaden the inclusion of sites where Telehealth services would be covered under Medicare.

Again, we applaud this legislation and its implications for patients and participating clinicians. If our organizations can be of any assistance, or if you have any questions, please contact Convener of the Nursing Community, Dr. Suzanne Miyamoto, at Smiyamoto@aacn.nche.edu or 202-463-6930, ext. 247.

Sincerely,

Academy of Medical-Surgical Nurses
