

Review

Please complete the following review form for this presentation proposal. The first question will focus on the completeness of the abstract, based on the evaluation criteria in the call. The remaining questions will pinpoint important aspects of the proposal, and many include descriptions of what is being asked. Note that the first question has a specific rating scale listed for it. Please give your Recommendation for the proposal; we ask that if you choose "Reject", you leave a comment stating your reasons. Feel free also to leave any general comments about the proposal.

1. Criteria: Proposal Clarity/Completeness - Rate the proposal on the clarity/completeness of the evaluation criteria below, which were listed in the Call for Abstracts. Use the rating scale listed specifically for this question here:

Rating Scale for Question 1:

1 = Three components are weak or missing

2 = Two components are weak or missing

3 = One component is weak or missing

4 = Strong in all components

5 = Outstanding in all components

Research Category:

- Problem Statement
 - What was the problem that led you to conduct this study?
- Theoretical framework
 - What theories or concepts were applied to create a frame of reference?
- Methods and Design
 - What methods were used to collect and analyze the data?
- Results
 - What do the data indicate?
- Implications for psychiatric-mental health nursing practice
 - How does this research translate into practice?
- Implications for future research

Abstracts in Administration, Education, or Practice should address the following:

- Purpose
 - *Clinical topics: What is your purpose in addressing the topic/current trend to this audience?*
 - *Practice change: What problem/issue led to this intervention/practice/project?*
- Summary of evidence / Summary of evidence guiding the practice change
 - *Clinical topics: What is the background and evidence related to the topic?*
 - *Practice change: What evidence led to the proposed change in administration, education, or practice?*
- Description of practice or protocol
 - *Clinical topics: What are the current practices related to the topic?*
 - *Practice change: Include strategies for implementation and identify stakeholders*
- Validation of Evidence / Method of Evaluation
 - *Clinical topics: How is the evidence validated by the literature or current practice?*
 - *Practice change: How did you measure outcomes or effectiveness?*
- Relevance to PMH Nursing / Results
 - *Clinical topics: How does the topic and its current practices relate to PMH nursing?*
 - *Practice change: What were the outcomes of your intervention/practice/project?*
- Future implications

*Proposal Clarity / Completeness

For Questions 2-7, use this rating scale:

- 1 = Poor
- 2 = Fair
- 3 = Average
- 4 = Good
- 5 = Excellent

2. Appropriateness of content to purpose/issue/problem

*Appropriateness of content

3. Contribution to psychiatric nursing scholarship: Proposal has the potential to advance knowledge in PMH nursing.

*Contribution

4. Originality: Proposal shows relevance to current issues, innovativeness of approach and/or findings.

*Originality

5. Objectives: Objectives are consistent with the goals of the presentation, clearly stated, clearly measurable, realistic and doable, appropriate for the level of the learner, worthy (important information).

*Objectives

6. Appropriateness of educational outline to the audience

*Appropriateness of educational outline

7. Importance of this proposal being presented at the conference

*Importance

*Recommendation

If you selected "Reject" above, please state your reasons below.

Reject (state reasons)

Characters Remaining

500

Reject (state reasons) is limited to 500 total characters, including spaces and punctuation.

General Comments

A large, empty rectangular text area with a thin black border. It features a vertical scrollbar on the right side and a horizontal scrollbar at the bottom, both with standard arrow and track icons.
