About the Conference

The APNA Clinical Psychopharmacology Institute focuses on complex clinical issues and is targeted for specialists in psychiatric nursing - those who administer and/or prescribe medications. Recognizing that a person is more than a mental disorder, this institute addresses the interaction of health care issues, mental disorders, ethnopsychopharmacological treatment and care. Complex health issues, medication challenges, and recently approved medications will be addressed. CPI attracts approximately 500-600 high level attendees (Nurse Practitioners and Clinical Nurse Specialists).

Information

This is an opportunity to provide information and demonstrations from recent research on products and/or drugs to a targeted group. Due to the promotional aspect of these 90-minute sessions, continuing education contact hours are not provided. There are no APNA educational sessions held during the scheduled Product Theater times. Additionally, only one Product Theater can be scheduled at a time, which gives your company exclusive presentation rights during that time period.

The sponsoring company must appoint a speaker who will present content related to the company’s products and/or services. Sessions are promotional and information can address a specific drug or product.
