September 23, 2014

The Honorable Sherrod Brown
United States Senate
713 Hart Senate Office Building
Washington, DC 20510

Dear Senator Brown:

On behalf of the 44 undersigned organizations representing the Nursing Community coalition, we write in support of the Ensuring Access to Primary Care for Women & Children Act (S. 2694). Collectively, our organizations represent nearly one million registered nurses, advanced practice registered nurses (APRNs), nurse faculty, researchers, and students, and we are committed to promoting efforts that advance the health of our nation through nursing care. Your legislation addresses a critical step toward ensuring access to primary care services for Medicaid and Children’s Health Insurance Program (CHIP) beneficiaries, and we applaud the inclusion of APRNs as key health providers in this national effort.

Currently, the Medicaid payment rate that has been temporarily aligned with the Medicare payment rate is set to expire on December 31, 2014. Recognizing the high demand for primary care services, S. 2694 would ensure that this temporary rate for Medicaid and CHIP is sustained through December 31, 2016. In addition, the bill includes nurse practitioners (NPs), certified nurse-midwives (CNMs), and physician assistants as eligible providers to receive this payment rate so that these clinicians are able to maximize their contributions to the primary care arena.

Again, thank you for introducing the Ensuring Access to Primary Care for Women & Children Act, which will help ensure that Medicaid and CHIP beneficiaries are not denied the high-quality services that NPs and CNMs offer. If our organizations can be of assistance, please contact Convener of the Nursing Community, Dr. Suzanne Miyamoto, at Smiyamoto@aacn.nche.edu or 202-463-6930, ext. 247.

Sincerely,
