Open Heart/Open Book

Co-authoring with Families and Patients to Write the Recovery Story on an Inpatient Unit

Melissa Elliott, RN, CNS, APRN-BC
The University of Virginia

Disclosures

The speaker has no conflicts of interest to disclose.

Objectives

1. Articulate and explain 2 principles of Narrative Psychotherapy: the authorial power of documentation and the externalization of the problem.

2. Adapt the structure and questions offered in the presentation to write 3 interview questions for use in your own workplace.

3. Co-author 2 steps of a document to sustain recovery. This prepares you to co-author a recovery document with patients and families.
