Learn How To:

- ✓ Describe risk and protective factors related to suicide.
- ✓ Demonstrate self-awareness of emotional reactions, attitudes, and beliefs related to previous experiences with suicide.
- ✓ Perform an independent risk assessment for self-directed violence (non-suicidal and suicidal) through use of a case study example based on competency based education.
- ✓ Develop a collaborative safety plan with the patient/family based on competency based education.
- ✓ Identify environmental hazards based on the unit and personal levels.
